We've been playing the new game "Left 4 Dead " nonstop for the past week, it's an unbelievably fun game. We added a server for the game at 8.12.16.26:27015, you can join via server browser.

Last night we played for hours, suab, miz , levicon, red, gbaby, jirloen, dirky, ronnie, DH ... uh more guys I cant remember... You just don't know what fun is until you try for 20 mins to barf green slime on levicon, lol!
Check out the game , its a valve/eagame and it's all mayhem.
